Wominjeka

Chisholm acknowledges the Bunurong people of the Kulin Nation as the Traditional Custodians of the Country on which our campuses are located. We recognise their continuing connection to land and waters and thank them for protecting the Country and its ecosystems that we enjoy today.

We pay our respects to Elders, past and present, and extend that respect to all First Nations people.

Chisholm is committed to supporting and empowering our Aboriginal and Torres Strait Islander workforce, students and their communities by providing quality teaching and learning opportunities.

WHY CHISHOLM?

Empower yourself with training that opens doors and makes a meaningful impact on you – and on others.

Whether you're starting a new career, need new skills, or want to advance your education, you'll have what you need to make it happen at Chisholm.

With courses shaped by industry needs, we provide practical training and real-world skills to help you thrive in your field. Learn from the experts, build connections, and gain hands-on experience.

You'll leave with more than a qualification – you'll have the tools to shape your future.

Courses designed for real job outcomes

Get career-ready with hands-on training for in-demand occupations and stand out as a candidate to future employers.

Flexible course delivery

We have course options that support different learning styles and needs, including on-campus, blended, fully online, and workplace delivery.

Wrap-around support and student services

Access our range of services to overcome obstacles, maximise your learning potential, and create connections in our supportive community.

Industry-current teachers

With our experienced teachers and innovative learning spaces, you'll get the most out of your course, preparing you to start your new role confidently.

Partnerships with industry leaders

Through our network of industry partners, you'll benefit from specialised training, practical placements and collaborative projects.

Apply directly

From school leavers to mature-aged learners, those who wish to upskill, and international students, we welcome students from all walks of life to apply with us directly.

CAMPUS LOCATIONS

Our campuses across Melbourne’s south east offer classes with collaborative study spaces and modern facilities.

STUDENT SUPPORT SERVICES

Whether you need study advice or personal guidance, we're here to help you overcome challenges and stay on track to achieving your goal.

Essential support and counselling

Access free and confidential short-term counselling from qualified professionals. Get help with study or personal matters, including sexual harm and family violence.

Student events and activities

Unwind, have fun, and meet new people while participating in our inclusive student events and activities. Enjoy free food, live music, games, and more.

Equitable learning and disability support

If you have a disability, long-term illness or mental health condition, our Equitable Learning and Disability Support team will help you with any learning and accessibility support you need.

International student support

Still settling into Melbourne? Access a full range of study support from our International Students Office, including course transfers and advice on studying and living in Australia.

Koorie student services

If you identify as an Aboriginal or Torres Strait Islander, our Koorie Student Support team are always available for a yarn. They're here to support your learning journey, start to finish. Plus, they can connect you with local communities and mob-specific services.

Apprenticeship support

Our Apprenticeship Hub offers wrap-around support and information to all apprentices and employers.

Chisholm Skills and Jobs Centre

Get free support from our Skills and Jobs Centre to enter the workforce, start training or re-skill. Explore Chisholm Skills and Jobs Centre support services at chisholm.edu.au/skillsandjobscentre.

Youth support

From help with study and financial advice to mental health, online safety and LGBTIQA+ matters, get confidential support as a young person. We're committed ensuring you thrive in a safe and encouraging environment. Learn more at chisholm.edu.au/child-safe-statement.

Financial and wellbeing support

Get on top of your finances with support from our Success and Wellbeing team. They can help with money management and refer you to appropriate community resources.

Scholarships

Are finances tight? Eligible students can apply for scholarships through the Caroline Chisholm Education Foundation (CCEF) to help cover tuition and course materials. For eligibility information, visit chisholm.edu.au/ccef.

Library and Learning Centres

Visit our Library and Learning Centres for a quiet place to revise or meet with classmates. Find resources like books, computers, printers, and scanners and get help connecting to our free Wi-Fi.

Learning skills

Improve your study skills with our Learning Skills team based at your campus Library and Learning Centre. They can support you in writing, researching, referencing, and more.

Safer communities

We want everyone to feel safe, secure and protected at Chisholm and free from sexual harm and domestic violence.

Find out more about our sexual harm support, family violence support and details on our [Child Safe Standards](#).

Learn about our support services in detail

For more information about all the support services available at Chisholm, visit **Student Support and Engagement**. You can also call **1300 244 746**, option 4, email studentservices@chisholm.edu.au or visit a Student Support Hub on campus.

FREE TAFE AND FREE TAFE PATHWAYS

Free TAFE

Gain in-demand skills and make an impact – without the tuition fees*.

The Victorian Government's Free TAFE initiative offers qualifications in high-demand industries, helping you build practical skills while supporting the communities and economy that rely on them.

Free TAFE Pathways

Keep your learning moving forward with Free TAFE Pathways.

Previously, students could access only one Free TAFE course. Now, Free TAFE Pathways allows you to continue studying additional qualifications tuition-free, as long as they sit within the same training pathway as your first Free TAFE course. This initiative only applies to Free TAFE Pathway courses specifically outlined below.

FIND YOUR STUDY PATHWAY

There's more than one way to reach your education and career goals. No matter where you're starting from, your pathway is yours to shape – and we're here to help.

Start your career sooner

Get job-ready skills fast and step into the workforce. You could start with an entry-level course, study while you work, or build practical skills now and continue studying later.

Get your qualification your way

There's no single path to success. You might stack qualifications over time, or start at a lower level and progress if you don't meet entry requirements.

Study levels explained

Certificate

Length: 6 months–3 years.

Study level: Basic training and skills in a specific industry to get you started in the workplace. Can include pre-apprenticeships, apprenticeships and traineeships.

Completion level: Entry-level skilled worker.

Diploma

Length: 1–2 years.

Study level: More detailed knowledge and hands-on training to help you start a professional career or continue learning.

Completion level: Skilled worker.

Advanced diploma/ associate degree

Length: 1–2 years.

Study level: Further and more specialised hands-on professional learning.

Completion level: Highly skilled worker with specialised knowledge.

Degree

Length: 3–4 years.

Study level: Technical and theoretical knowledge of a specific subject and the ability to apply that knowledge.

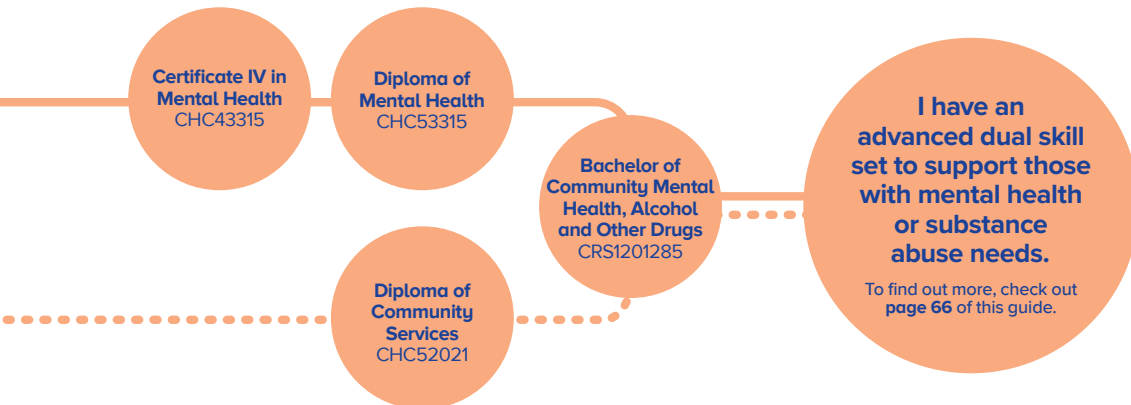

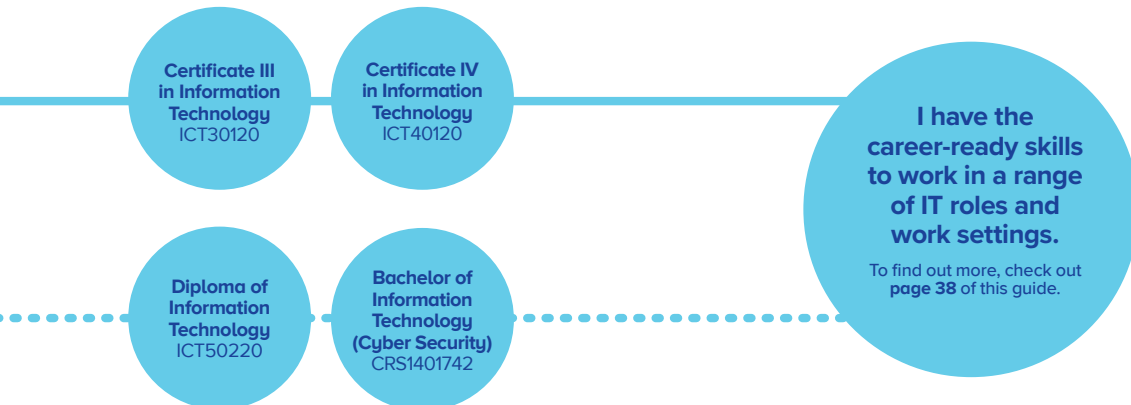

Completion level: Study area generalist.

Graduate certificate/ diploma

Length: 6 months–1 year.

Study level: Further, specialised knowledge of a specific study area. Can be an extension to your degree studies or a complementary vocational skillset.

Completion level: Study area specialist.

This diagram shows just some of the ways your study and career journey can unfold. You can change direction, adjust your goals, or discover a different path that suits you better – there's always a next step.

Key

- Pathway one
- Pathway two

APPRENTICESHIPS, TRAINEESHIPS AND PRE-APPRENTICESHIPS

Did you know that you can earn while you learn?

At Chisholm, we help you achieve your qualifications while working as an apprentice or trainee across a variety of occupations.

We work with industry, community, and government to identify the knowledge and skills needed both now and in the future. This ensures our training produces highly qualified individuals who are ready for the jobs they want.

For high school students, we offer school-based apprenticeships and traineeships. And if you would like to explore an industry before committing, our pre-apprenticeship courses are an excellent way to get started.

Why choose an apprenticeship or traineeship at Chisholm?

Experience

Over 20 years of expertise in apprenticeship and traineeship training.

Support

Comprehensive support tailored to apprentices and trainees.

Expertise

Dedicated teachers with extensive industry experience.

Facilities

State-of-the-art learning spaces equipped with modern technology.

Partnerships

Strong networks and collaborations with industry leaders.

Training

Hands-on, industry-aligned training designed to meet current needs.

Pathways

Defined pathways to further study and rewarding careers.

Funding

Access to government funding for eligible students.

Inclusivity

A welcoming and inclusive learning environment.

Recognition

A proud history of award-winning apprentices and trainees.

Learn more about apprenticeships and traineeships

Apprenticeship Hub

Got questions? Our Apprenticeship Hub is the single point of contact for apprentices and employers. Our team of experts knows everything about the apprenticeship process and offers you dedicated support. We can also liaise with your Apprentice Connect Australia (ACA) Providers if you need it. To contact the Apprenticeship Hub, call **1300 775 265** or email apphub@chisholm.edu.au.

Apprenticeships Victoria Helpdesk

Get any information, support, or advice you need about apprenticeships or traineeships in Victoria. Call **1300 311 820** 9am–5pm, Monday–Friday (closed public holidays) or email apprenticehelpdesk@djsir.vic.gov.au.

Find out more about the Apprenticeship Helpdesk. apprenticeships.vic.gov.au

HIGHER EDUCATION

Combine undergraduate and postgraduate qualifications with real-world skills for in-demand careers.

Considering a bachelor or postgraduate degree? Your pathway doesn't have to be traditional.

At Chisholm's Higher Education College, degrees can look a little different. If you've completed a relevant diploma, you may skip the first year of a degree and start in the second year. If not, we'll help you create a pathway to get there. Some courses even offer the option to exit early (at a pre-determined point) with an associate degree.

When you study with us, you'll gain qualifications for high-growth occupations in a supportive environment. Think small classes, exceptional facilities, and personalised academic support from experienced teachers.

Career fields

- > Accounting
- > Community mental health
- > Engineering technology
- > Family violence
- > Information technology
- > Management and leadership
- > Nursing
- > Psychology

Nationally recognised

Highest ranked TAFE in Australia for Higher education.*

Fast-tracked learning

Start in the second year of a degree with credit from relevant diplomas.

More support

Small class sizes mean more one-on-one teacher support and time to connect with others.

▲ Higher education students and Chisholm staff members on campus.

Degrees done differently

At Chisholm, our bachelor and postgraduate courses meet the highest industry standards – but with benefits that get you career-ready sooner.

Our study pathways let you transition from relevant qualifications, often reducing the time it takes to complete your degree. Plus, by getting recognised qualifications along the way, you can start working sooner. For example, after one year of a Bachelor of Business (Accounting) CRS1401273, you can earn an associate degree and begin your career as an accountant.

We also focus on practical skills. With hands-on training and real-world experience, you'll graduate with the confidence and skills to step straight into your career.

Tailored support for tertiary learning

Enrolling in a higher education program at Chisholm gives you access to our new Tertiary Access Program (TAP). The TAP is designed to support your learning, offering free sessions to help you develop the skills needed for higher education coursework and set you up to achieve your best.

The TAP can help you improve your study, writing, and digital skills. It also boosts your confidence with tasks like presentations and essays, ensuring you're well-prepared to succeed in your course.

Learn more about support from the TAP.

Accounting

Bachelor of Business (Accounting) CRS1401273

2 years full time, 4 years part time

March, July

Dandenong

Progress your accounting career and develop strong analytical, reporting and problem-solving skills. This course is accredited by CPA Australia and Chartered Accountants Australia and New Zealand (CAANZ).

Career opportunities: Accountant, auditor, registered tax agent.

Entry requirements: Certificate IV in Accounting and Bookkeeping and a Diploma of Accounting. Alternatively, a diploma in business, library and information services, IT, or sports management with the addition of a three-week accounting basics support class, or a complete or incomplete higher education qualification in Accounting.

Exit point option: After one year (full-time study), you can choose to exit this degree with an Associate Degree in Business (Accounting).

Student story

Rose

Bachelor of Community Mental Health, Alcohol and Other Drugs CRS1201285

2025 Chisholm Education Awards Higher Education Student of the Year, Rose, is a powerful example of what's possible through resilience and purpose.

While completing her Bachelor of Community Mental Health, Alcohol and Other Drugs, she overcame significant personal challenges to build a career supporting young people.

Now working as an alcohol and drugs caseworker, Rose is driven to break down stigma around mental health and drug and alcohol abuse in the South Sudanese community.

Some of our higher education courses have limited Commonwealth Supported Places (CSPs) available. This means that, if eligible, you may not have to pay full fees. CSPs are indicated on course listings using this icon: CSP

Scan to learn more about CSP fees and eligibility.

Student story

Sarah

Bachelor of Community Mental Health, Alcohol and Other Drugs CRS1201285

Sarah, a proud Wiradjuri/Ngunnawal woman, decided to change careers and enrolled in Chisholm's Bachelor of Community Mental Health, Alcohol and Other Drugs (AOD), followed by the Graduate Certificate in Family Violence.

Sarah loved her experience and was inspired by teachers who have done amazing things in the sector.

"The knowledge and the lived experience that the teachers had in the sector was just incredible."

Now, Sarah is in a national project manager role, working with her First Nations mob, making a real difference.

SECONDARY SCHOOL PROGRAMS

Thrive in your learning environment and achieve your VCE, VCE VM, or VETDSS with confidence.

There's more than one way to reach your education goals. And you can do it all in a flexible and supportive environment.

Are you looking to complete your VCE? Or maybe you want to combine your high-school studies with in-demand skills to prepare for further education or work?

Whether you've recently left school, are still enrolled, or are returning to study as a mature student, Chisholm has the right program to help you succeed.

With small class sizes, personalised support, and modern facilities, you'll have everything you need to achieve your goals and make a meaningful impact on your life – and even the lives of others.

Career fields

- > Victorian Certificate of Education (VCE)
- > Victorian Pathways Certificate (VPC)
- > VCE Vocational Major (VCE VM)
- > VET Delivered to School Students (VETDSS)

Large training provider

One of Australia's largest VETDSS training providers.

Modern facilities

Brand new Frankston facility fit-out for secondary school students.

Flexible learning

Multiple programs and methods to support VCE or VET learning goals.

▲ Project material and student work through the Next Gen Change Makers program.

Where learning meets purpose

As part of their VCE VM studies, students took part in Next Gen Change Makers, an eight-week program delivered with values-led partner Powered for Purpose. The program helps secondary students build confidence, find their voice and learn real-world skills.

Through creative activities, students explored issues that matter to them and worked together to design community projects. Many finished the program feeling more confident, connected and ready for future study, work and life.

poweredforpurpose.com.au/nextgen-change-makers

VCE

Doing your VCE Year 11 and 12 at Chisholm gives you the flexibility to finish secondary school your way. You can also complete a VET course as part of your VCE program.

With fewer people per class than in mainstream schools, your dedicated teachers are there to support you every step of the way.

We offer VCE across three campuses: Dandenong, which is exclusively for adult VCE (18 and over), and Frankston and Berwick which are focused on our youth cohort (under 18). On completion, you'll earn your VCE and an ATAR score for entry into your preferred tertiary course.

Learn more about support from the [VCE](#).

VCE Vocational Major (VCE VM)

Finish your Year 11 and 12 studies while gaining real-world skills for your future career.

As part of the VCE, the VCE VM focuses on core units in numeracy, literacy, personal development, and work-related skills. You'll also select vocational units in areas like construction trades, healthcare, sport and fitness, early childhood education, or business and IT.

You'll get personalised support and hands-on work experience. Plus, you'll learn in an adult learning environment so you can take charge of your journey and start building your career pathway.

Learn more about [VCE VM](#).

VET Delivered to School Students (VETDSS)

VETDSS allows you to combine your Year 11 or 12 secondary school studies with vocational education, earning a credit towards a Certificate II or III.

You'll remain enrolled at your secondary school while attending Chisholm occasionally for your vocational subject. It's a great option if you're looking for a pathway into an apprenticeship, employment, or further study at TAFE or university.

Choose from a range of study areas and attend classes with us at set times to gain real-world skills and get a head start on your career.

Learn more about support from the [VETDSS](#).

Victorian Pathways Certificate (VPC)

Complete your senior secondary studies in a flexible, supportive way that builds confidence and essential skills.

The VPC is for students who aren't ready to complete the VCE or VCE VM. Usually completed across Years 11 and 12, it focuses on foundations in literacy, numeracy and work-related skills. There's also an option to include VET and hands-on learning experiences.

You'll receive personalised support in a welcoming environment, with assessment based on classroom progress. When you finish, you'll receive your VPC and any VET qualifications achieved – helping you move into further study, training or work.

Learn more about [VPC](#).

Student story

Jordi

VCE Vocational Major

"While I was at Chisholm, I experienced nothing but unwavering support and guidance."

During her VCE VM, Jordi completed the Certificate II in Electrotechnology (Career Start) UEE22020 in a welcoming, flexible learning environment where teachers genuinely checked in and supported her wellbeing.

The experience built her confidence and momentum, and she's now preparing for a stable job and to step into an electrical apprenticeship.

▲ Students with the team at Hoops and Cookies talking social enterprise.

Powering change through design

As part of their VCE VM studies, Year 12 students took part in a purpose-driven social enterprise project delivered in partnership with local organisation Hoops and Cookies.

Over seven weeks, students created original logos and artwork featured on limited-edition hoodies sold through an online store. The project gave students real-world experience in branding, creativity and online business, while showing how enterprise can create positive community impact.

ART AND DESIGN

Ignite your creativity and enrich lives through the power of art.

Are you ready to create and inspire? Your passion can spark ideas, transform perspectives, and leave a lasting mark on the world.

You might want to design eye-catching graphics. Maybe capture stunning photos. Or perhaps your goal is to experiment with different art styles. Whatever path you take, a course at Chisholm will unlock your talent and prepare you for a career in the creative industry.

From short courses to diplomas, you'll learn from artists and designers who know the industry inside out. Work in our brand-new art and design studios with professional tools to hone your craft. And with connections to local organisations, you could collaborate on real creative projects or even showcase your work in the community.

Career fields

- > Printing
- > Graphic design
- > Visual arts

Brand new facilities

Purpose-built design studios, print rooms, computer labs, and gallery space.

Real-world experience

Respond to real client briefs for local organisations and industry partners.

Expert teachers

Experienced teachers with first-hand knowledge still active in the creative industry.

▲ Open Studio 2025: Chisholm's Art and Design end-of-year exhibition.

Celebrating creativity at our end-of-year exhibition

Chisholm's art and design programs foster creativity and allow students to display their work in real-world settings.

Our end-of-year exhibition transforms our state-of-the-art facilities into a lively, gallery-style space where students, friends, family and industry connect. With awards backed by local businesses and insights from industry leaders, it's a dynamic celebration of talent and innovation.

Through exhibitions like these, students gain experience, build confidence in their work, and take their first steps into the creative industry.

Student story

Sage

Diploma of Graphic design CUA50720

“I’m glad I chose the study pathway I did. The Certificate IV in Design was a stepping stone to the Diploma. I learnt good foundation skills in design.”

The highlight of Sage’s time at Chisholm was the student experience and the opportunity to meet and bond with like-minded people.

“I felt really supported by my teachers. They were very understanding and supportive. They care about what they do and gave me constructive feedback.”

After landing an internship, Sage secured a full-time role with The Oodie.

AUTOMOTIVE

Fuel your passion for engines and get the skills to drive your career forward.

Love figuring out what makes cars go – or fixing them when they don't? An automotive career has this and so much more.

From making engines roar to fine-tuning mining equipment, Chisholm's automotive courses set you up for success – no matter your goal. Our qualifications are valued across the sector, ensuring you've got the skills that businesses are looking for.

Gain hands-on experience from industry professionals in cutting-edge facilities. With expert training and the technical knowledge needed to thrive, you'll stand out to employers and keep your career firing on all cylinders.

Career fields

- > Heavy commercial vehicle mechanical
- > Light vehicle mechanical
- > Mobile plant technology
- > Vehicle servicing

Cutting-edge facilities

Automotive centre fully equipped for current, real-world learning.

Booming industry

The automotive industry in Australia is worth over \$183.4bn (2026).*

Industry connections

Network and build connections with local industry organisations.

▲ Chisholm Automotive Centre, Dandenong campus.

Forward-thinking automotive spaces

The Automotive Centre at our Dandenong campus helps you learn practical skills for a successful automotive career.

The centre features modern industrial settings and warehouse simulations, as well as a new EV centre. Plus, it has dynamic spaces that adapt to evolving course programs.

The innovative building even prioritises the environment by using natural elements for heating, cooling, and ventilation.

High earning potential in a rewarding trade

An automotive apprenticeship at Chisholm can set you up for a well-paid and secure career. With a nationally recognised qualification and training valued across the industry, you'll have the flexibility to work locally or explore jobs nationwide.

Skilled trades like heavy vehicle and mobile plant mechanics are in high demand, with excellent job prospects. Some apprentices go on to work in the mining industry, where wages can be significantly higher, especially in Queensland and Western Australia.*

Whether you stay close to home or travel for work, an automotive trade can open doors to a range of rewarding opportunities.

BUILDING TRADES AND CONSTRUCTION

Build skills for a successful career and make a lasting impact on your community.

Are you ready to help shape the construction industry for the better? Maybe combine your creativity and skills to transform outdoor spaces or build furniture?

You could become a foreperson, plumber, landscape designer or cabinet maker, to name a few. No matter what, each role plays a part in improving the built environment and making a difference in people's lives.

At Chisholm, we'll give you hands-on training with expert guidance in cutting-edge facilities, as well as access to replica work sites for real-world training. Developed hand-in-hand with industry, our programs ensure you're not just work-ready – you're set to excel in a career with impact.

Career fields

- > Bricklaying
- > Building and construction
- > Cabinetry and furniture making
- > Carpentry
- > Electrical
- > Horticulture and landscape construction
- > Plumbing

Trade training experts

One of the largest trade training providers in Melbourne's south east.

Job opportunities

The construction industry is expected to see a demand for 64,500 new workers by 2028.*

Custom built facilities

Learn with the tools and in spaces just like a job site.

▲ Bricklaying student training in Chisholm trades workshop.

Supporting diversity in trades

The trade sector is the backbone of Australia's development and infrastructure – just look at Victoria's Big Build. It provides exciting and varied career opportunities. And we want these opportunities to be for everyone, no matter who you are and how you identify.

Chisholm supports women and non-binary people in starting and thriving in skilled trades. We are proud of our inclusive learning environments and actively promote initiatives that support gender equality in trade training.

At Chisholm, we want to help break barriers to benefit individuals, communities, businesses, and the economy.

Building foundations in construction through apprenticeships

A construction career offers stability and strong earning potential, and an apprenticeship is a great way to get started. It allows you to earn while you complete your qualifications.

At Chisholm, we'll help you build a solid future with expert training. You'll learn in real-world job site simulations and industry-leading facilities to ensure you're job-ready. We stay ahead of industry changes, so you'll gain the skills employers need.

Plus, with dedicated support from our teachers and Apprenticeship Hubs, you'll have everything you need to succeed.

Student story

Daniel

Certificate III in Electrotechnology Electrician (Apprenticeship) UEE30820

Chisholm electrotechnology apprentice Daniel entered WorldSkills – the prestigious competition that showcases the best apprentices and tradespeople across Australia.

He finished in the top 0.05% of Victorian apprentices, a result he credits to the strong encouragement and mentorship he received from his teachers and employer.

Daniel says his TAFE experience built the skills and confidence to compete, encouraging others to remember these extra challenges are “always worth having a crack.”

BUSINESS, IT AND CYBER SECURITY

Unlock your potential and launch a career that means business.

Ready to code, crunch numbers, or strategise like a pro? Chisholm's tailored courses in business, finance, IT, and cyber security will give you the skills you need.

Outsmart hackers and safeguard data in the ever-evolving cyber world. Make game-changing decisions that shape the future of finance. Launch into the fascinating field of criminology. Excel in administration or real estate. Even follow the pathway to becoming a Certified Practising Accountant (CPA)!

From certificates to degrees, you'll gain hands-on, industry-relevant skills under the guidance of experienced professionals. Graduate ready to thrive in high-demand roles across booming industries where your expertise will make a real impact.

Career fields

- > Accounting
- > Business administration
- > Business management
- > Cyber security
- > Information technology
- > Justice
- > Pharmacy and retail
- > Project management
- > Real estate
- > Work, health and safety

Job opportunities

High growth in the IT and cyber security fields has boosted demand for skilled workers.

Cutting-edge technology

New cyber labs at our Frankston campus.

Accredited accounting degree

The Bachelor of Business (Accounting) is accredited by CPA Australia CAANZ.

▲ Chisholm accounting student now working as an accountant at an award-winning firm.

Real tax experience that makes a difference

As an accounting student, the Chisholm Tax Clinic allows you to gain hands-on tax experience in a real work setting.

With guidance from certified professionals, you'll work with real clients, build skills and confidence in tax services, and develop a deeper understanding of the financial world. You'll grow your interpersonal skills, giving you an edge as you start your career.

The clinic also lets you make a meaningful impact in your community by supporting individuals and small businesses facing financial hardship.

Partnership networks for real-world IT experience

Our strong relationships with industry partners add real value to the student experience. Through a collaboration with JB Hi-Fi, IT and cyber security students gained first-hand insight into technology in a national retail environment.

The workshops explored point-of-sale systems, network security and real IT support scenarios. By examining real cyber security case studies, students connected learning to industry practice.

▲ Chisholm students working on an information technology project.

Alternatively, a diploma in business, library and information services, IT, or sports management with the addition of a three-week accounting basics support class, or a complete or incomplete higher education qualification in Accounting.

Exit point option: After one year (full-time study), you can choose to exit this degree with an Associate Degree in Business (Accounting).

Student story

Jasmine

Certificate III in Business
BSB30120

“It was a personal and professional stepping stone.”

Before starting university, Jasmine took a gap year and applied for a traineeship with Bass Coast Shire Council.

While working full-time as a junior council officer, she completed her qualification with Chisholm, building skills in communication, time management, and workplace technology.

The experience gave her the confidence to take the next step into a Bachelor of Psychological Science.

Business administration and management

Certificate III in Business BSB30120 (Traineeship)

- 48 weeks full time
- February, April, July, October
- Workplace

This course seamlessly combines theoretical knowledge with real-world application. As a trainee, you'll actively engage in business scenarios while getting paid.

Career opportunities: Assistant records manager, customer service assistant, office administrator.

Next pathway: Certificate IV in Business, Diploma of Business.

Certificate IV in Business BSB40120 (Traineeship)

- 1 year full time, 2 years part time
- February, April, July, October
- Workplace

This course equips you with essential skills to thrive in the business sector. The qualification covers a range of areas, from critical thinking to effective communication.

Career opportunities: Administrator, sales assistant, sustainability officer.

Next pathway: Diploma of Business.

Certificate IV in Leadership and Management BSB40520 (Traineeship)

- 48 weeks part time
- February, April, July, October
- Workplace

Progress your career in management and leadership. Build knowledge in strategic management, change management, global management, entrepreneurship and more.

Career opportunities: Business analyst, business development manager, small business manager.

Next pathway: Diploma of Leadership and Management, Bachelor of Business (Management and Leadership).

Diploma of Leadership and Management BSB50420

- 1 year full time
- February
- Dandenong, Frankston

Blend the practical business know-how with the crucial leadership capabilities that employers want.

Career opportunities: Sales manager, business manager, office manager, team leader.

Next pathway: Diploma of Project Management, Bachelor of Business (Management and Leadership).

Diploma of Project Management BSB50820 (Traineeship)

- 1 year full time
- February, April, July, October
- Workplace

Gain your qualifications with this holistic and dynamic traineeship, which will prepare you for the complexities of real-world project management.

Career opportunities: Project manager.

Next pathway: Bachelor of Business (Management and Leadership).

Bachelor of Business (Management and Leadership) CRS1401274

- 2 years full time, 4 years part time
- March, July
- Dandenong

Progress your career in management and leadership. Build knowledge in strategic management, change management, global management, entrepreneurship and more.

Career opportunities: Business analyst, business development manager, small business manager.

Entry requirements: Diploma (any field of study) or a complete or incomplete higher education qualification.

Exit point option: After one year (full-time study), you can choose to exit this degree with an Associate Degree of Business (Management and Leadership).

Cyber security

Certificate IV in Cyber Security 22603VIC **FREE TAFE**

- 1 year full time, 1.5 years part time
- February, July
- Berwick, Dandenong, Frankston

Get started in a high-tech and high-speed program that will prepare you with the skills and knowledge needed to be job-ready in a rapidly growing industry.

Career opportunities: Cyber security specialist.

Next pathway: Bachelor of Information Technology (Cyber Security).

EDUCATION

Change lives for the better in early childhood, education support, or training and assessment.

Shape young minds and help build the future with a career in education – one of the most rewarding fields in the community.

Support children in early childhood centres, kindergartens, or out-of-school care. Or help students thrive in primary and secondary schools. Chisholm's early education qualifications open doors to meaningful roles where your impact will be felt for years to come.

With a training and assessment qualification, you could become a TAFE teacher, vocational trainer, or compliance officer. Whatever you learn, you'll gain the practical skills and knowledge from industry experts to make a difference from day one.

Career fields

- > Early childhood education
- > Education support
- > Training and assessment

Simulated learning

Industry training through on-campus early childhood work settings.

Job opportunities

The education and training industry is expected to see a demand for 31,200 new workers by 2028.*

Skilled teachers

Passionate teachers with expertise in early childhood development, education support, and training and assessment.

*Source: vic.gov.au/employment-projections-dashboard

▲ Chisholm early childhood education and care trainee supporting a child's learning.

Innovative learning in workplace simulations

When you study early childhood education at Chisholm, you'll have access to modern classrooms, giving you the best learning environment.

Our practical learning areas are just like early childhood education settings. The simulation work areas allow you to practice your skills and gain confidence. We even invite local playgroups to use our space, giving you an authentic experience.

At Chisholm, we're committed to using the best equipment for children in our classroom settings. This includes toys made with natural materials to promote sensory development.

Paid traineeships with early childhood services

The Jobs Victoria Early Childhood Traineeship Program supports people who want to work in early childhood education and has placed more than 250 students into roles in the sector.

In this program, you'll get paid while you learn. You'll work at a local early childhood service and study for a Certificate III in Early Childhood Education. And the TAFE program is tuition-fee-free!

This project provides you with all the support you need to learn. Plus, it's a great way for early childhood employers to discover new talent.

Next pathway: Diploma of Early Childhood Education and Care.

Student story

Camille

Certificate III in Early Childhood Education and Care (Traineeship) CHC30121

“If it feels right, take the leap.”

After stepping away from university, Camille returned to her passion for working with children through Chisholm.

Starting in education support, she soon pivoted to a Victorian Early Childhood Traineeship and the Certificate III in Early Childhood Education and Care.

Now thriving in a nursery role, Camille has found purpose, flexibility, and a clear path forward, and says the traineeship is a great way to enter the field with support.

Want to help support kids in early childhood?

And, you'll have the skills to work in the industry after each course!

FINDING A PATH THROUGH EDUCATION

James

James' learning journey has taken many turns, but each step has shaped the educator he is today. Now a teacher at Chisholm, he's training the next generation of early childhood educators – helping them develop skills to support young learners.

After leaving school early, James decided he wanted more options for his future. He returned to study at Chisholm, completing vocational preparation courses and his VCE before going on to complete a Diploma of Justice 22594VIC. But it was his Diploma of Early Childhood Education and Care CHC50121 that set him on his true path.

James quickly found his passion in education, working in early childhood settings. He then took his next step – a Certificate IV in Training and Assessment TAE40116 so he could teach other adults to do the same.

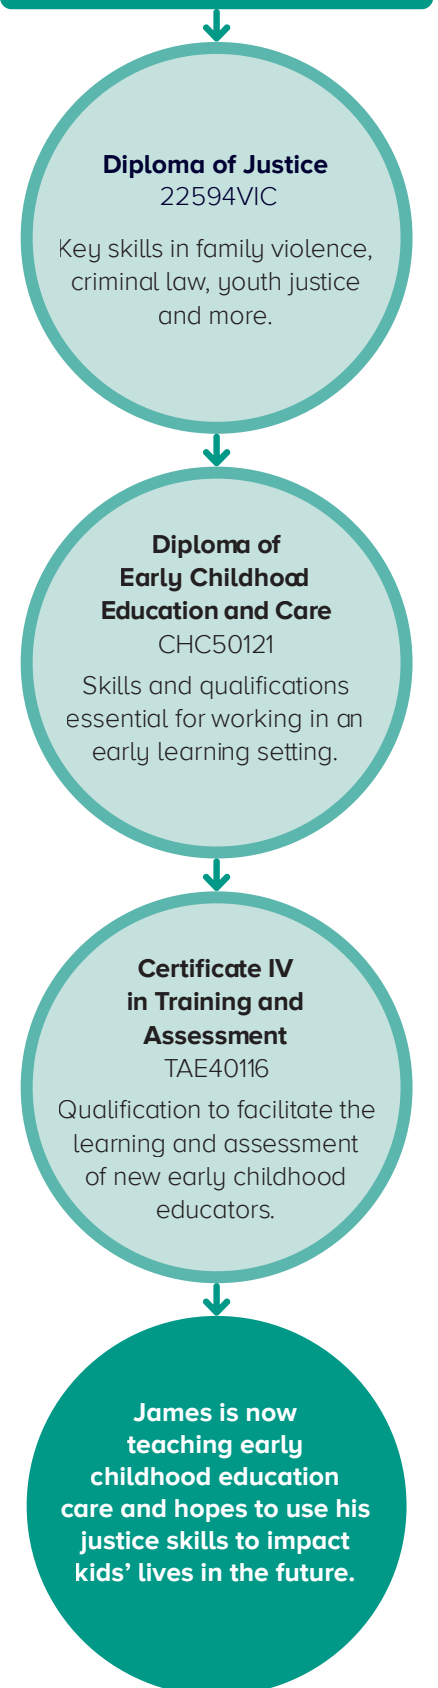

“Now I get to guide others in the early childhood industry and hone their strengths and abilities. I get so much out of supporting their learning journey from start to finish.”

James credits Chisholm for giving him the support he needed to succeed in his studies. His teachers not only guided him through his courses but also encouraged him to pursue teaching – recognising his potential and achievements along his unique pathway.

“If I ever struggled with any of the content or wasn't sure of something, my teachers really put their hands up and helped guide me along.”

In the future, James hopes to combine his skills in justice, early learning, and teaching to support children in the judicial system, helping them build brighter futures.

James's pathway

ENGINEERING

Step into a career that blends tech with real-world impact in engineering and metal trades.

From drones delivering pizza to robots cleaning your house, the future is being engineered – and you could be the one making it happen.

Welcome to the world of engineering, where tech meets tomorrow. From welding and fabrication, fitting and machining, to computer-aided design, robotics, renewables, and automation – your options are limitless.

At Chisholm, pick your path from certificates to degrees and get the skills to launch a career that's anything but ordinary. Learn from industry pros through a blend of hands-on practical classes using the latest equipment and essential theory. Plus, delve into real work projects in the community that bring your training to life.

Career fields

- > CNC programming
- > Engineering technology
- > Fitting and machining
- > Mechatronics and robotics
- > Maintenance and manufacturing
- > Renewable energy
- > Welding and fabrication

Advanced technology

Mechatronics, robotics and virtual welding for the latest training.

Focus on diversity

Inspiring teachers who empower students from all backgrounds to excel.

Internationally recognised

High-value training and qualifications with global impact.

▲ Engineering student and teacher in Chisholm engineering learning facilities.

Practical placement programs for engineering students

Through work placements, engineering students practice what they've learned in a real workplace and get mentorship from leaders in the engineering field.

Chisholm training partner REDEI, in Dandenong, provides its clients with renewable energy solutions. In placements with companies like REDEI, students can use the latest engineering technology and assist in projects. We've even had some students stay on as permanent employees as a result!

Engineering

Certificate II in Engineering Studies 22632VIC **FREE TAFE**

- 6 months part time
- April, July, October
- Dandenong

Learn the foundational skills needed to enter the engineering industry. Understand both fabrication and mechanical pathways.

Career opportunities: Mechanical or fabrication apprentice, trades assistant.

BUILDING A CAREER IN ENGINEERING

Damien

Whether tinkering with cars, fishing, or spending time outdoors, Damien has always loved working with his hands. So, when it came to choosing a career, he knew it had to be just as practical. In Year 12, he enrolled in a Certificate II in Engineering Studies 22632VIC at Chisholm to explore his options.

That first step confirmed engineering was the right path. It led him to an apprenticeship at a local manufacturing company and back to Chisholm to complete a Certificate III in Engineering – Mechanical Trade MEM30219.

In addition to developing his technical skills, Damien's courses helped sharpen his critical thinking and problem-solving abilities – skills he sees as essential to his career success. He also says his supportive teachers played a key role in his journey.

“Even when I had a question about work, my teachers were happy to guide me whenever they could.”

To expand his opportunities even further, Damien completed a Certificate IV in Engineering MEM40119 (CNC Programming) alongside his apprenticeship.

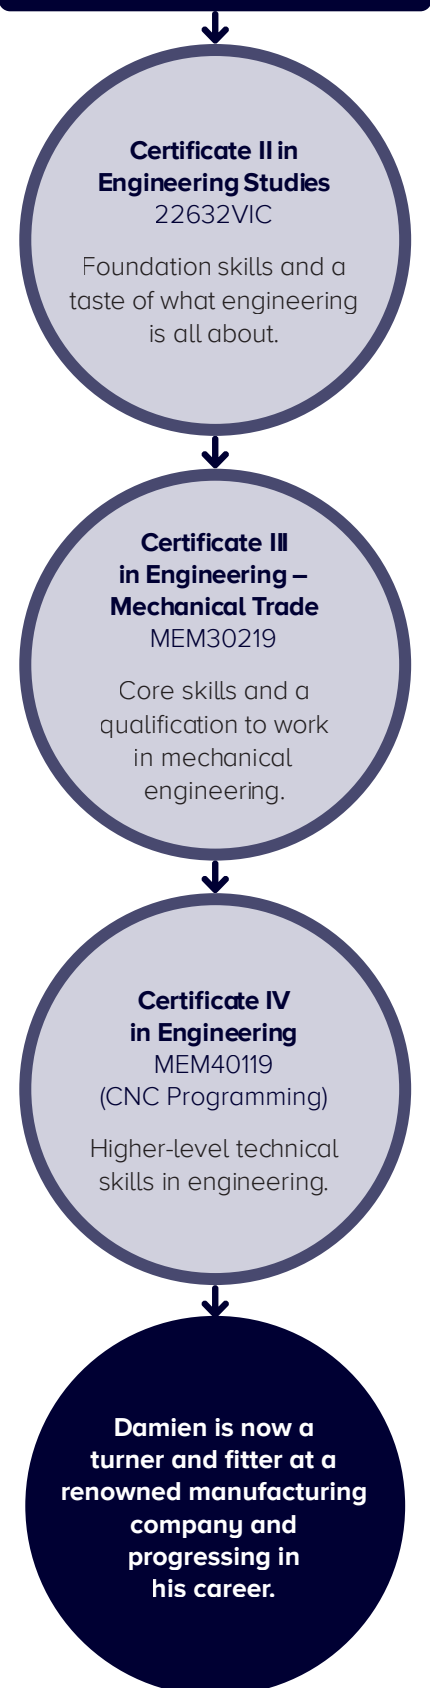

“I wanted to progress and deepen my knowledge in the field as it's something that will help me with my future career and even my current job.”

Today, as a fitter and turner, Damien is making an impact on major projects, from bridges to skyscrapers and universities.

“My work has me in the architecture sector, not only around Melbourne but also in various places around the world.”

Looking ahead, Damien plans to keep building his skills, whether through on-the-job experience, further study, or short courses and workshops.

Damien's pathway

ENGLISH LANGUAGE AND FOUNDATION PROGRAMS

Build a strong foundation in a supportive environment for your next big step.

Are you looking to build new skills, find work, or take on a new challenge? No matter where you start, it can all begin here at Chisholm.

At our Foundation College, you'll find a supportive space to develop skills, overcome challenges, and prepare for employment. We'll help you improve your writing and maths. You can learn English. Or join Work Education programs developed for people with intellectual disabilities.

Our small classes and caring teachers mean you'll always have support. And with our student support services, you'll have everything you need to gain the skills and confidence to reach your goals.

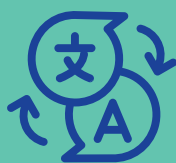

Career fields

- > English as an additional language (EAL)
- > General education for adults
- > Work education

Practical experience

Build confidence and independence through practical course delivery.

English for migrants

3,500+ students each year learn English through the Adult Migrant English Program (AMEP).*

Nurturing environment

Small classes for more one-on-one time with teachers.

*Eligibility criteria applies.

▲ Chisholm general education student and staff on campus.

General education for adults

Chisholm's General Education for Adults courses are for people who want to brush up on their literacy or numeracy or fill some gaps in their education.

The benefits of these General Education courses for adults (not youth) include:

- > Self-directed learning that focuses on your learning goals.
- > Enrol at any time of the year.
- > Small class sizes with individualised support from your teachers.
- > Pathway options include apprenticeship, further study, or employment.

Whatever your goal, and wherever you're starting from, we'll help get you up to speed and give you more confidence in your abilities.

English as an additional language (EAL)

Course in Initial EAL 22636VIC

- 🕒 18 weeks full time, 24 weeks part time
- 📅 Ongoing enrolments
- 📍 Berwick, Cranbourne, Dandenong, Frankston, Springvale

Learn basic English to develop your language skills and prepare for future studies or employment.

Next pathway: Course in EAL.

Course in EAL 22637VIC

- 🕒 18 weeks full time, 24 weeks part time
- 📅 Ongoing enrolments
- 📍 Berwick, Cranbourne, Dandenong, Frankston, Springvale

Learn beginner English to develop your language abilities and improve your speaking, listening, reading, writing and living skills.

Next pathway: Certificate I in EAL (Access), Certificate II in EAL (Access), Certificate III in EAL (Access).

Certificate I in EAL (Access) 22638VIC

- 🕒 20 weeks full time, 27 weeks part time
- 📅 Ongoing enrolments
- 📍 Berwick, Cranbourne, Dandenong, Frankston, Springvale

English as an Additional Language EAL (Access) helps you develop more independent English language skills to improve speaking, listening, reading, writing and living skills.

Next pathway: Certificate II in EAL (Access), Certificate III in EAL (Access).

Certificate II in EAL (Access) 22639VIC

- 🕒 20 weeks full time, 27 weeks part time
- 📅 Ongoing enrolments
- 📍 Berwick, Cranbourne, Dandenong, Frankston, Springvale

Gain communication skills for further study and employment success so you can participate in simple everyday communication.

Next pathway: Certificate III in EAL (Access), Certificate IV in EAL (Further Study).

Certificate III in EAL (Access) 22640VIC

- 🕒 20 weeks full time, 27 weeks part time
- 📅 Ongoing enrolments
- 📍 Berwick, Cranbourne, Dandenong, Frankston, Springvale

Expand your English skills and learn effective communication so you can access a range of further education, including vocational education options.

Next pathway: Certificate IV in EAL (Further Study).

Certificate IV in EAL (Further Study) 22646VIC

- 🕒 22 weeks full time, 28 weeks part time
- 📅 Ongoing enrolments
- 📍 Berwick, Cranbourne, Dandenong, Frankston, Springvale

Extend your English skills, develop your academic writing and researching ability, and gain confidence in presentations and projects to prepare for your next step in vocational or university study.

Student story

Chau

Certificate III in EAL (Access)
22640VIC

After migrating from Vietnam, Chau was determined to reinvent herself. She enrolled in the Certificate III in EAL (Access) 22640VIC, thrived, and also discovered a passion for writing. She even earned a finalist spot in the 2024 Chisholm Education Awards, Foundation Student of the Year.

“My teachers really believed in me and helped me to improve myself.”

▲ Inside our hairdressing area at Mysa Salon and Spa.

Giving students the in-salon experience

At Chisholm, we're dedicated to teaching the most current techniques in hair and beauty. That's why we provide a space for you to practice with real clients.

Mysa Salon and Spas at our Berwick, Dandenong, Frankston, and Mornington Peninsula campuses are like real salons and offer popular hair and beauty services.

You'll get the experience you need under the supervision of your teachers and the satisfaction of making people feel great!

Collaborations in sustainability for the future

Our partnership with Sustainable Salons gives students real experience in managing salon waste.

Sustainable Salons collects and recycles materials, keeping up to 96 per cent of our salon waste out of landfill. This both helps the environment and teaches students the value of sustainable practices.

By making sustainability part of our courses, we prepare students for the growing demand for eco-friendly salons.

EQUIPPED FOR SUCCESS IN HAIRDRESSING

WITH A DUAL QUALIFICATION

Izayah

Izayah is turning his passion for creativity into a promising career. After completing his Certificate III in Hairdressing SHB30416 at Chisholm, he expanded his skill set with a Certificate III in Barbering SHB30516 – a move that made perfect sense for someone who thrives on precision cutting and styling.

The combination proved to be a game-changer, giving him a well-rounded approach to the industry and boosting his confidence in his abilities.

“**Just that little bit of extra experience with barbering definitely makes me feel a lot more ready to work by myself in a salon.**”

Beyond technical skills, Izayah’s journey helped him overcome his initial struggles with communication. Determined to connect with clients, he made a habit of pushing himself to start conversations, build rapport, and find common ground.

The support he received from his teachers played a huge role in his overall growth.

“I wouldn’t have been able to do any of this without the team at Chisholm. We had experience working on real people in Mysa Salon, where the teachers would guide us and make sure our work was up to workplace standards.”

His dedication paid off when he won gold at WorldSkills 2024 for Hairdressing, securing his place in the state competition. The experience pushed him to refine his skills further and fuelled his passion for the industry.

With his confidence growing and his skills sharpening, Izayah’s focus is set firmly on the future – travelling and even running his own salon one day.

Izayah’s pathway

Certificate III in Hairdressing SHB30416

Hairdressing qualification including skills in colouring, styling and more.

Certificate III in Barbering SHB30516

Barbering qualification and broader knowledge of precision cutting and styling.

Izayah is now using his refined skills to create amazing hairstyles and is looking forward to a future as a senior stylist.

HEALTH AND COMMUNITY SERVICES

Change your life and others' for the better in a career that makes a difference.

Health and community services professionals are the backbone of our society, working in meaningful roles that impact lives every single day.

You could be drawn to allied health or nursing. You might want to join the world of community support or mental health. No matter what, you'll work alongside everyday heroes, find deep job satisfaction, and create a career with lasting purpose.

At Chisholm, we offer qualifications from certificates to postgraduate studies, all taught by experts in cutting-edge facilities like replica work environments. Gain hands-on experience through work placements, so you're ready to make an impact from day one.

Career fields

- > Aged care
- > Allied health
- > Community services
- > Counselling
- > Dental
- > Disability
- > Family violence
- > Massage
- > Mental health and alcohol and other drugs
- > Nursing
- > Pathology and sterilisation
- > Psychology
- > Youth work

Simulated learning

Modern, industry-standard hospital wards, clinics and counselling suites.

Job opportunities

The health and social services sector is expected to see a demand for 90,000 new workers by 2028.*

Family violence prevention training hub

Leading TAFE for training on the elimination of family violence.

▲ Nursing students at Chisholm replica workplace learning facility.

Ramsay Health Care's Undergraduate Cadetship Program

As a Chisholm Diploma of Nursing HLT54121 student, you'll have opportunities for work placements at Peninsula Private Hospital through Ramsay Health Care's Undergraduate Cadetship Program.

This program supports nursing cadets by providing supports and supervision in a real hospital. It has had a 100 per cent graduate success rate and will provide you with an opportunity for employment at a Ramsay facility.

Through placements, you'll gain insights into many nursing areas, equipping you for a successful career.

Advanced training through workplace simulations

At the Health Centre in Berwick and Chisholm's learning facilities in Frankston, you'll receive top training as a future healthcare professional.

The purpose-built teaching environments support learning in nursing, community services, and allied health, helping you reach your full potential.

You'll learn skills using cutting-edge technology like animatronic mannequins. And you'll get practical experience from simulation labs and hospital wards.

▲ Chisholm's Manager of Community and Social Services, Raelene Stockton.

DRIVEN TO MAKE A DIFFERENCE IN MENTAL HEALTH

Jessie

Jessie didn't always think she could do it. She worried she was past the point of starting something new. But with support from her husband, she took a chance – enrolling in a Certificate IV in Mental Health CHC43315 at Chisholm.

That first step changed everything, sparking a desire to keep learning and advancing her skills to help others. She went on to complete a Diploma of Counselling CHC51015, an Associate Degree of Psychology CRS1401151 and is now thriving in the Bachelor of Psychology CRS1401150, achieving top marks along the way.

“I'm really rewards-based, so I like to go one step at a time – it seems more achievable.”

For Jessie, the support from her teachers and the structure of her learning pathway have been invaluable. Studying at Chisholm has given her the confidence and skills to pursue her passion for helping others.

“The pathway has helped me decide where I'm going next in my career, as well as giving me tools to use in my current job.”

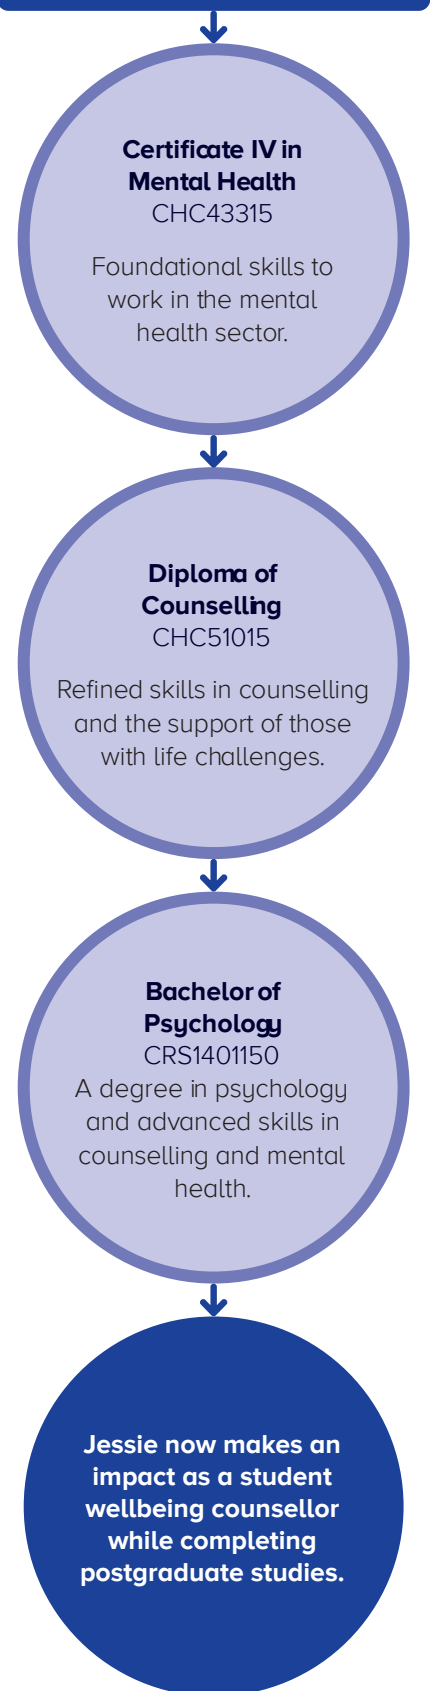

Working as a student wellbeing counsellor, Jessie is dedicated to supporting children and making a real impact on the lives of vulnerable young people as early as possible.

“I'm a really big believer in early intervention. I think it gives kids access to support they wouldn't have ever had before, and we can give them coping strategies they can take with them into high school and then adulthood.”

Since graduating, Jessie has been accepted into the 2026 Honours program in Psychology at Federation University. She credits the support and teaching she received during her degree with preparing her for the next step.

“I feel really prepared for the challenges this year because of the knowledge and guidance from the psychology team teaching in the Bachelor at Chisholm.”

Jessie's pathway

HOSPITALITY AND COOKERY

Master hospitality or culinary skills to unlock rewarding career opportunities worldwide.

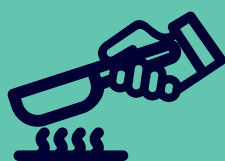

Love whipping up gourmet masterpieces or thriving in a buzzing work environment? A career in hospitality could be your recipe for success.

Whether it's plating five-star dishes, crafting decadent desserts, or managing the front of house, a qualification from Chisholm will set you up for exciting opportunities.

Our range of courses is designed for in-demand roles, here and around the globe. Learn from industry-trained teachers passionate about sharing the latest techniques. Train in our commercial kitchens and bustling student-run restaurants and cafés to gain hands-on experience.

Career fields

- > Commercial cookery

Student story

Ebony

Certificate III in Fitness
SIS30321

“The one-on-one support made a huge difference. Everything just made sense.”

After trying university and other career paths, Ebony found clarity at Chisholm through hands-on learning and personalised support. She completed a Certificate III in Fitness and then a Certificate IV, building confidence and career options. Today, she’s working in a women-only gym, turning her passion into purpose.

Did you know?

Our 12-week Certificate III in Fitness (partial completion) gives you the key units to step straight into Certificate IV in Fitness – fast-tracking your path to becoming a personal trainer or fitness instructor.

Now, you have the
qualifications and
advanced skills to
thrive.

And, you'll have the skills to work in the industry after each course!

MONEY MATTERS

Your study costs will depend on the specific course you enrol in and its requirements.

At Chisholm, course fees cover your tuition. There may be additional fees for services, facilities, equipment, and essential materials, so the full cost will depend on the type of course and its specific requirements.

What fees will you pay?

Government-subsidised fees

If you're an Australian or New Zealand citizen, hold a permanent visa, are an asylum seeker or are a victim of human trafficking, you may qualify for Victorian and Commonwealth government-subsidised training to help reduce course costs.

Concession fees

If you hold an eligible concession card or are listed as a dependant on one, you may be eligible for discounted tuition fees on Certificate IV courses and below. If you identify as Aboriginal or Torres Strait Islander, you may also be eligible for a tuition fee waiver across all vocational education levels. Concession fee discounts apply to government-subsidised training only.

Full fees

If you are an international student or don't meet government subsidy eligibility criteria, you may need to pay full course fees. For course fee information, visit the relevant course page by visiting chisholm.edu.au/courses.

Other fees

Additional costs may apply depending on your course. These could include:

- > Materials fees for essential items such as learning resources, personal protective equipment, or uniforms.
- > Student services fees for access to student services and on-campus activities.

What about Free TAFE?

We offer more than 39 Free TAFE courses across high-growth industries, like early childhood education, allied health, trades (excluding apprenticeships), and community and social services.

If you're eligible for government-subsidised training in Victoria, you may be eligible for Free TAFE. Free TAFE covers tuition fees for approved courses. Some costs, like student services or materials fees, may still apply.

You may also be able to complete multiple Free TAFE courses within the same Free TAFE pathway, helping you build your skills and expand your career options.

Eligibility requirements apply. Find out more at chisholm.edu.au/freetafe.

What are your payment options?

We want to ensure paying course fees is as easy as possible, so we provide several ways for you to pay.

Upfront

Pay your course fees in full before you start.

Payment plans

Spread the cost of your course over your enrolment period with one of our customised payment plans.

VET Student Loans

For approved diploma-level or higher VET courses, you may qualify for a government-backed loan. Learn more at chisholm.edu.au/students/fees/help-with-fees/vet-student-loans.

FEE-HELP Loans

You may be eligible for a FEE-HELP loan through the Australian Government for higher education courses, including approved bachelor degrees, associate degrees, graduate certificates, and graduate diplomas. Details are available at chisholm.edu.au/students/fees/help-with-fees/fee-help.

Scholarships

Facing financial challenges? Scholarships through the Caroline Chisholm Education Foundation can help cover tuition and material costs. Find out more at chisholm.edu.au/cccef.

HOW TO APPLY

1

Apply directly from your chosen course page on the Chisholm website or connect with our friendly enrolment team by phone or in person.

2

Our enrolment team will assess your suitability and eligibility and guide you through the enrolment process.

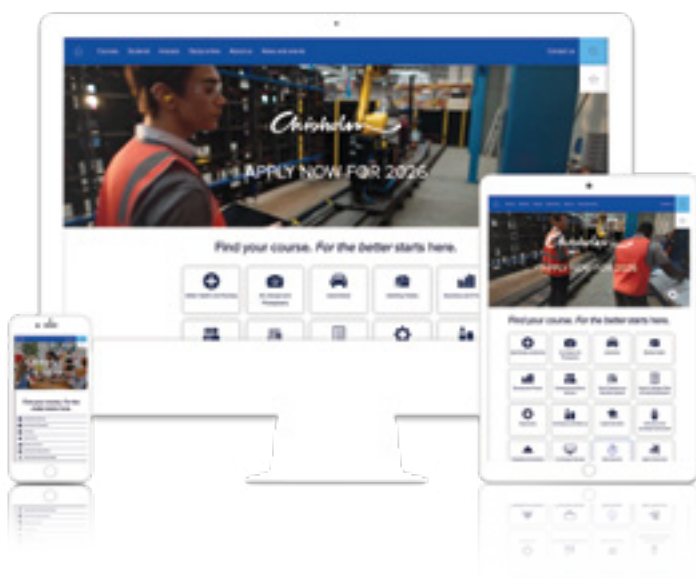

3

Once your payment is confirmed (if applicable), your enrolment is complete, and you'll be ready to begin your studies.
